About Us

Nusa Meridian Exports is a dedicated Styrax benzoin supplier and exporter based in Bandung, West Java, Indonesia. We specialize in sourcing, grading, and exporting premium gum benzoin resin from Sumatra—delivering consistent quality to buyers in the incense, perfumery, and pharmaceutical industries worldwide.

With direct access to local collectors and producers, we combine traditional harvesting knowledge with modern quality control systems to ensure each shipment meets international standards. Our in-house grading process ensures product consistency, whether you require large almond-shaped benzoin tears, medium grades, or gum benzoin dust.

We understand the critical needs of global buyers: reliable supply, transparent communication, and timely delivery. With a solid logistics network and export experience, Nusa Meridian is your reliable partner for importing Styrax benzoin from Indonesia.

Company Value

At Nusa Meridian Exports, we uphold strong values that drive our commitment to quality, sustainability, and global reliability. These principles are at the heart of everything we do — from the forest to final delivery — ensuring that our clients receive not just products, but long-term value.

Premium-Grade Styrax Benzoin

We supply carefully graded gum benzoin that meets international export standards — trusted by buyers worldwide.

Ethical & Sustainable Sourcing

As a responsible styrax benzoin supplier in Indonesia, we support local farmers and prioritize eco-friendly harvesting practices.

Reliable Export & Global Delivery

Fast, safe, and consistent export services from Indonesia — your dependable styrax benzoin exporter for global markets.

Our Gum Benzoin Products

We offer a wide range of gum benzoin grades to cater to different industries and applications. All products are carefully sorted, graded, and quality-checked.

**Gum Benzoin
Grade A**

**Gum Benzoin
Grade B**

**Gum Benzoin
Dust**

Our Gum Benzoin Products

Grade A1

Premium Benzoin (Almond / Large Tears)

Grade A1 is the highest-quality gum benzoin we offer. Handpicked from the best harvests of Styrax trees in Indonesia, these almond-sized tears are golden to light brown, aromatic, and ideal for incense, perfumery, and pharmaceutical applications. As a trusted styrax benzoin exporter, we ensure every batch is clean, uniform, and free from impurities.

Specification:

Category	: Premium Export Quality
Color	: Golden to Light Brown
Size	: Almond / Large Tears
Packaging	: 25 kg PP Bags / Customized
Applications	: Incense, Perfumery, Pharmaceuticals

Our Gum Benzoin Products

Grade A2

Premium Benzoin (Medium Tears)

This grade contains medium-sized tears of gum benzoin, suitable for perfumery, cosmetics, and traditional medicine. Carefully sorted for purity and fragrance, Grade A2 is a perfect balance between affordability and premium quality from a leading gum benzoin supplier Indonesia.

Specification:

Category	: Premium Medium Tears
Color	: Brownish-Golden
Size	: Medium
Packaging	: 25 kg PP Bags / Customized
Applications	: Perfumery, Incense, Herbal Remedies

Our Gum Benzoin Products

Grade B1

Medium Export Quality (Small Tears/Nut Size)

Grade B1 is composed of nut-sized benzoin grains, ideal for bulk buyers and manufacturers needing reliable material for industrial purposes, resin mixes, or incense production. Sourced directly from Indonesian farmers, it's a cost-effective yet high-quality option for international importers.

Specification:

Category	: Medium Export Quality
Color	: Dark Brown
Size	: Nut-sized
Packaging	: 25 kg PP Bags / Customized
Applications	: Resins, Incense, Essential Oil Extraction

Our Gum Benzoin Products

Grade B2

Medium Export Quality (Corn Size)

Smaller than B1, this corn-sized benzoin is widely used in resin formulations, incense sticks, and aroma blends. It offers consistent granule size, good fragrance retention, and is easy to process in manufacturing systems.

Specification:

Category	: Medium Export Quality
Color	: Brown
Size	: Corn-sized
Packaging	: 25 kg PP Bags / Customized
Applications	: Incense Making, Resins, Bulk Trading

Our Gum Benzoin Products

Grade B3

Medium Export Quality (Rice Size)

This grade contains rice-sized gum benzoin particles, perfect for industrial usage where fast melting or infusion is required. Cost-effective, yet sourced from the same high-standard trees as our premium grades.

Specification:

Category	: Medium Export Quality
Color	: Dark Brown
Size	: Rice-sized
Packaging	: 25 kg PP Bags / Customized
Applications	: Industrial Use, Cosmetic Blends, Resins

Our Gum Benzoin Products

Grade B4

Industrial / Broken (Sand Size)

Broken benzoin resin in sand-size grains, this is one of the most commonly used grades for bulk industrial applications. Suitable for extraction, chemical processes, and fragrance development on a large scale.

Specification:

Category	: Industrial Grade
Color	: Brown to grey
Size	: Sand-sized
Packaging	: 25–50 kg Sacks / Customized
Applications	: Extraction, Industrial Fragrance, Resins

Our Gum Benzoin Products

Dust

Industrial (Flour)

This fine benzoin dust (powder form) is the result of precision grinding of resin particles. It's especially used in pharmaceutical compounds, powdered incense, perfumery, and cosmetic R&D.

Specification:

Category : Industrial Fine Powder
Color : Light to Dark Brown
Size : Flour / Powder
Packaging : 20–25 kg Paper Bags / Bulk Packaging
Applications : Pharma, Incense Powder, Fragrance Labs

Product Packaging
