Company Profile

2026

A vintage-style globe is the central focus, showing a map of the world with landmasses in orange and oceans in blue. The globe is encircled by a dense arrangement of various green plants, including ferns and broad-leafed species, creating a natural, jungle-like frame. Overlaid on the center of the globe is the text "From Indonesia to the World" in a large, white, serif font. The text is positioned horizontally, spanning across the middle of the image. The background is dark, making the green foliage and the white text stand out.

From Indonesia to the World

About Us

PT Nusa Meridian Export is an Indonesian export company dedicated to delivering the rich natural commodities of the archipelago to global markets that value quality and authenticity. Rooted in one of the world's most biodiverse regions, we are committed to ethical sourcing, sustainable trade practices, and building long-term partnerships across borders.

Our name reflects our identity and mission:

"Nusa" represents Indonesia's island heritage, while "Meridian" symbolizes global connectivity through trade. Together, they reflect our commitment to integrity, quality, and a forward-looking approach to international commerce.

As a trusted bridge between Indonesian producers and the world, PT Nusa Meridian Export aims to elevate local communities while promoting the richness of Indonesia through every shipment we make.

Vision

To become Indonesia's leading exporter of sustainably sourced, high-quality goods — recognized globally for excellence, integrity, and lasting contributions to international trade.

Mission

- 1.To connect Indonesian farmers and communities to global markets by empowering them through fair trade, education, and opportunity.
- 2.To export premium Indonesian products that reflect the nation's rich culture, natural abundance, and artisanal craftsmanship.
- 3.To contribute to Indonesia's global trade presence by fostering long-term international relationships grounded in quality, integrity, and customer satisfaction.

Gum Benzoin

Grade A2 – Premium Benzoin (Medium Tears)

Grade A2 consists of the high-quality benzoin gum, slightly smaller than large tears but still bright and aromatic. It is picked and shade-dried to preserve its natural translucency and pleasant aroma.

Features:

- Size: > 1.2 cm
- Color: golden white
- Texture: Solid, crystalline
- Aroma: Strong, rich, balsamic
- Applications: Luxury incense, perfumery, cosmetics, and pharmaceuticals

Gum Benzoin

Grade B1 – Medium Export Quality (Small Tears/Nut Size)

Grade B1 is composed of uniform, nut sized granules with consistent quality. While smaller, it retains a pleasant aroma and is suitable for broader industrial use

Features:

- Size: 1.2 - 0.6 cm
- Color: Light golden to creamy brown
- Texture: Firm and dry
- Aroma: Fragrant and clean
- Applications: Fragrance industry, cosmetics, and export markets requiring medium visual appeal

Gum Benzoin

Grade B2 – Medium Export Quality (Corn Size)

Grade B2 is composed of uniform, corn-sized granules with consistent quality. While smaller, it retains a pleasant aroma and is suitable for broader industrial use.

Features:

- Size: 0.6 - 0.3 cm
- Color: Light to medium brown
- Texture: Slightly brittle
- Aroma: Moderate but pleasant
- Applications: Standard incense, fragrance blending, and export-grade processing

Gum Benzoin

Grade B3 – Medium Export Quality (Rice Size)

Grade B3 includes smaller granules resembling rice grains, suitable for bulk applications where consistency and cost-efficiency are prioritized.

Features:

- Size: 0.3 – 0.1 cm
- Color: Light to medium brown
- Texture: Crumbly, some fine particles
- Aroma: Mild aromatic scent
- Applications: Dhoop sticks, agarbatti blending, general aromatic applications

Gum Benzoin

Grade B4 – Industrial / Broken (Sand Size)

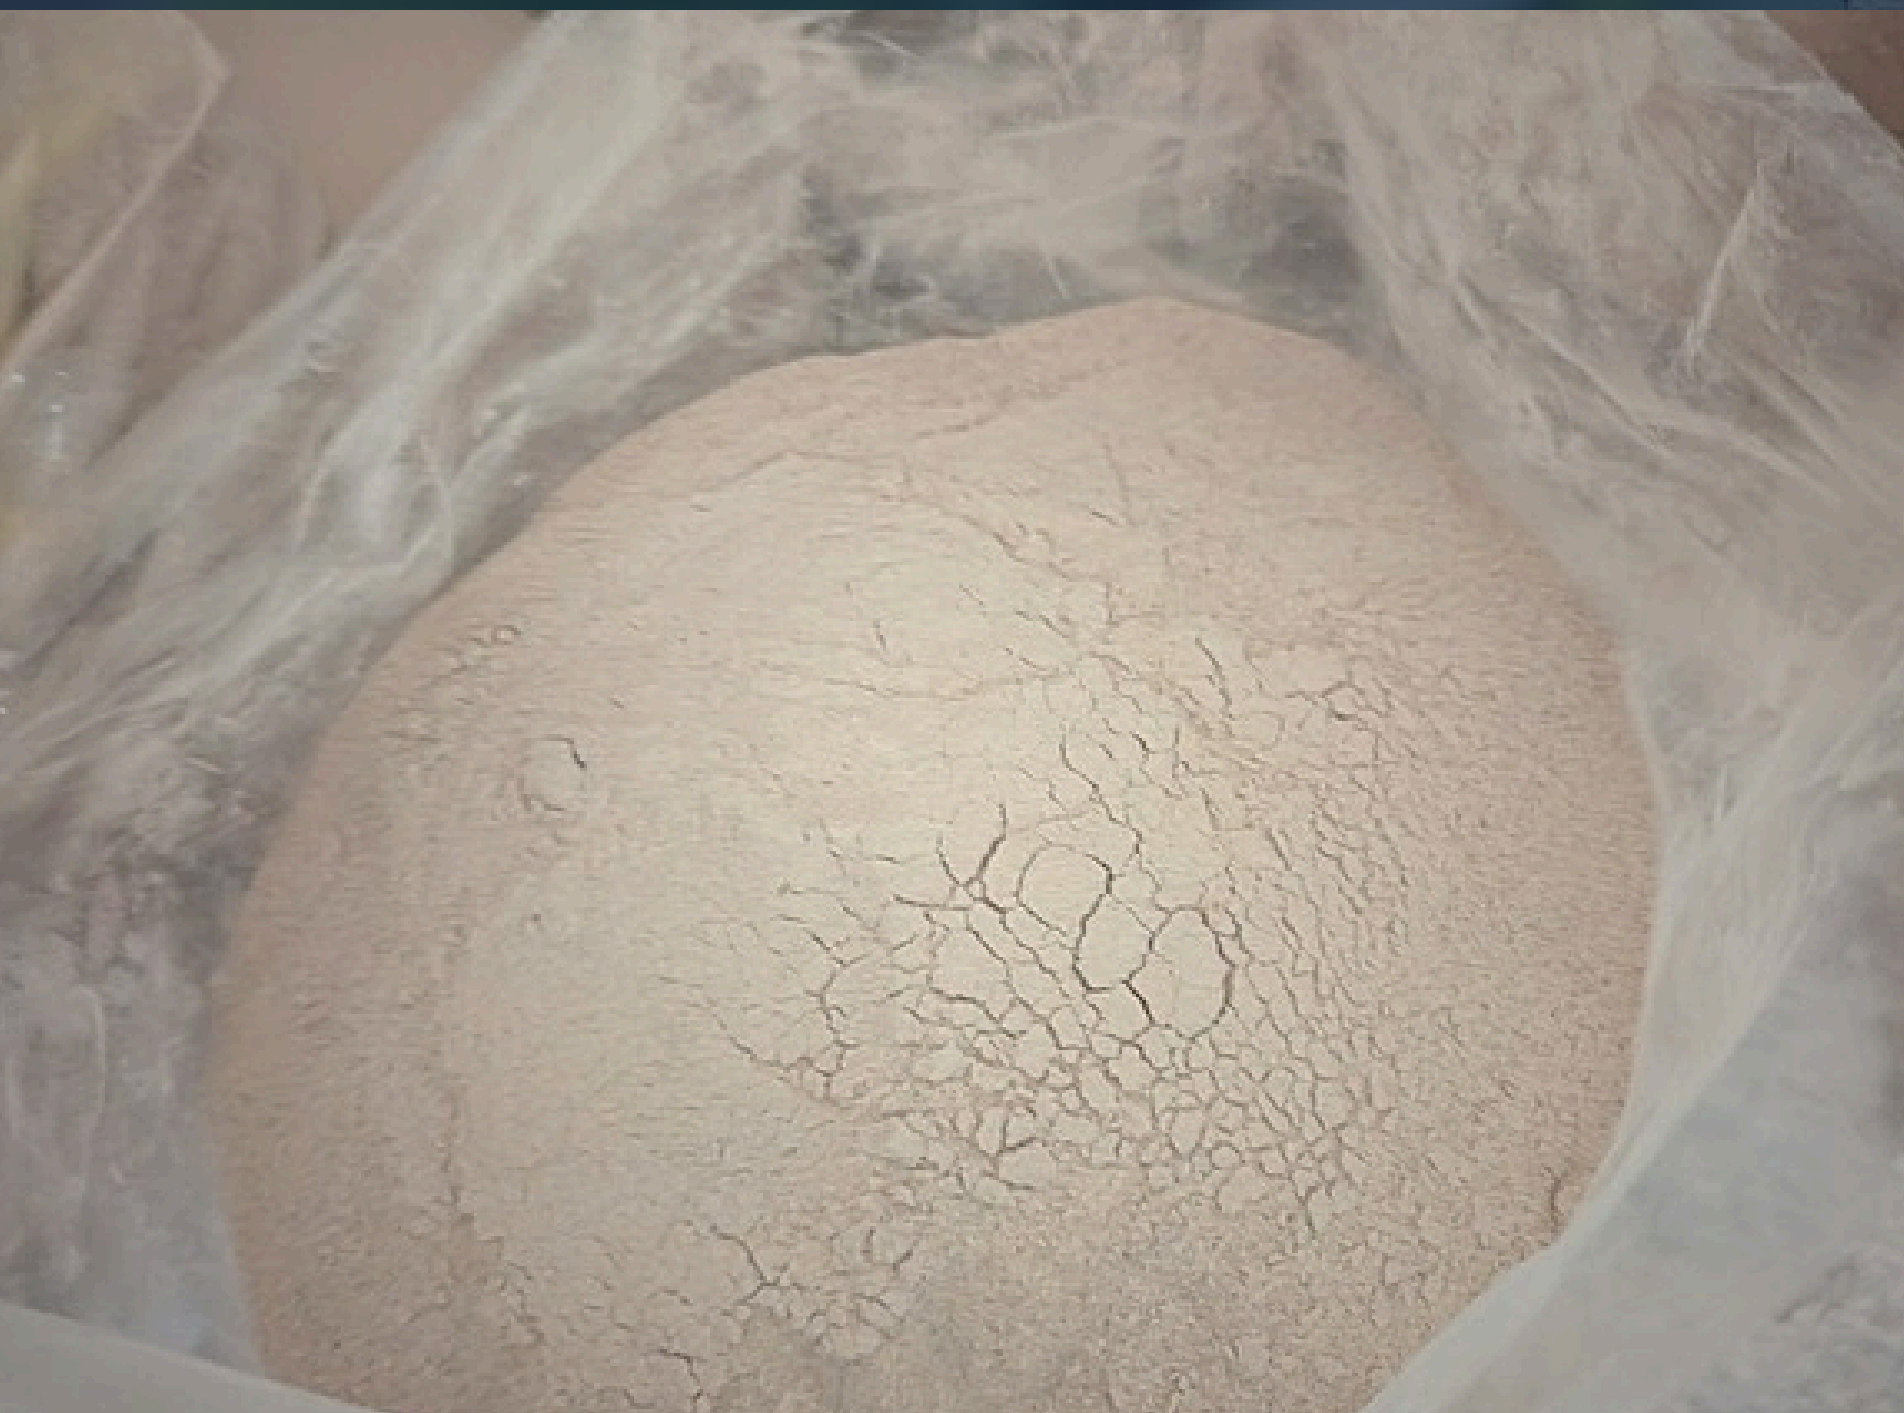

Fine granules of benzoin gum with sandy texture. Though small, it still contains aromatic compounds, making it useful in large-scale processing.

Features:

- Size: < 0.1 cm
- Color: Light to medium brown
- Texture: Grainy
- Aroma: Subtle
- Applications: Powdered incense, resin formulation, industrial uses

Gum Benzoin

Dust – Industrial (Flour)

Finely ground benzoin in powder form. This is typically the residue from sorting higher grade resins, still retaining the aroma.

Features:

- Size: Powder / dust / flour
- Color: Brown to light brown
- Texture: Fine and dry
- Aroma: Faint, earthy
- Applications: Industrial extraction, incense base mix, chemical processing

Incoterms:

FOB (Free on Board)

CNF (Cost and Freight)

CIF (Cost, Insurance & Freight)

Payment Terms:

T/T (Telegraphic Transfer)

L/C (Letter of Credit)

Terms & Shipping Conditions
